

## Department of Educational Innovation

The Department of Educational Innovation is currently seeking nominations and applications for three positions. The following links will take you to specific information about each of the positions:

[Department Chair](#)

[Assistant Professor of Instructional Technology](#)

[Assistant Professor of Educational Psychology](#)

The College of Education is undergoing reorganization and the new name of our department is Educational Innovation. The department now includes faculty and programs in the areas of instructional technology and school library media; faculty and support courses in the areas of educational research, educational psychology, and foundations of education. The instructional technology and school library media faculty came from the [Media and Instructional Technology Department](#) . The educational research faculty and the foundations faculty came from the [Educational Leadership and Professional Studies Department](#) . The educational psychology faculty came from the [Counseling and Educational Psychology Department](#) . Reviewing each of the three department webpages will provide an overview of the philosophy of the various groups of faculty who have come together in the new Department of Educational Innovation.

A PPT recently presented to the College of Education Board of Visitors provides an overview of the new department. As you view the presentation if you click on the quote bubble found in the bottom right corner of each slide you will be able to read the presenters narrative.

[Educational Innovation Presentation](#)

### **The department offers the following programs:**

- M.Ed. Instructional Technology track
- M.Ed. School Library Media track
- Add-On and Initial Certification in School Library Media
- Ed.S. Instructional Technology track
- Ed.S. School Library Media track

### **The department offers support courses for undergraduate and graduate programs:**

- Educational Psychology
- Research
- Foundations

For each of the three positions, the Educational Innovation Department is seeking energetic individuals who are interested in working in a collaborative, entrepreneurial, and dynamic academic organization. Qualified candidates will have successful experience or demonstrated promise in: supervising field-based or clinical activities, conducting meaningful research and scholarship, teaching undergraduate and graduate courses, guiding undergraduate and graduate student research, identifying and pursuing collaborative and entrepreneurial opportunities, developing and providing instruction through on-line or alternative methods, and developing collaborative relationships with academic and non-academic partners.

The following link will take you to the old [Media and Instructional Technology Department](#) webpage. On this page you will find links to the instructional technology and school library media program handbooks which provide an overview of the degree programs offered by the department.

The following links will take you to information about each of the faculty in the department:
